

**NATIONAL CSSC Green Message - Protective security at public events -
16/09/2022**

Dear Partners,

Please find attached a document intended to provide advice and guidance to improve protective security at unofficial local events relating to Operation London Bridge. This is particularly aimed at anyone organising public events such as screenings in publicly accessible locations. The document contains a link to the ProtectUK website providing further advice and access to the ACT E-learning package (found under the Related Content links on the left).
